Completely silent

Adjust the pressure to your preference

# AIRROLLS

The AirRolls are developed to help gymnasts learn front- and back handsprings. More advanced gymnasts train their rebound and balance on the AirRolls. Besides these training options for gymnasts, they also offer a lot of play options for little kids. The three available sizes are suitable for small, medium and tall gymnasts.

Our AirRoll Stabilizer helps keep the AirRoll in place, allowing gymnasts to practice alone. This also greatly speeds up group exercises. Fits all AirRoll sizes!

## Item
