

INCLINED MODULES

- ❑ Specially designed for children from 18 months to 6 years
- ❑ These modules help children learn rotations and experience their first sensations of speed associated with these movements
- ❑ **Ref. 0362** has a shallower incline enabling children to develop the technique in a gentle way
- ❑ These modules can be used by their own or can be associated with the entire Educ'Gym range (foam modules and wooden range) allowing the creation of an infinite number of pedagogical circuits

TECHNICAL CHARACTERISTICS

- ❑ Made from different densities polyurethane foam
- ❑ Phthalate-free 1,000 denier PVC cover with M2 fire rating
