

STANDARD TRAINING VAULTING TABLE

- With a body using a combination of a dynamic foam complex and springs. This new vaulting table gives gymnasts a fast, dynamic response
- Featuring a two-tone dynamic body with soft front section for shock absorption, like the approved FIG vaulting table (Ref. 3404)
- Reduces gymnasts' fear thanks to its reassuring shape and its comfort layer positioned over the whole hand placement area to soften impacts
- Ideal for training
- Easy adjustment
- Adapted for all levels of practice

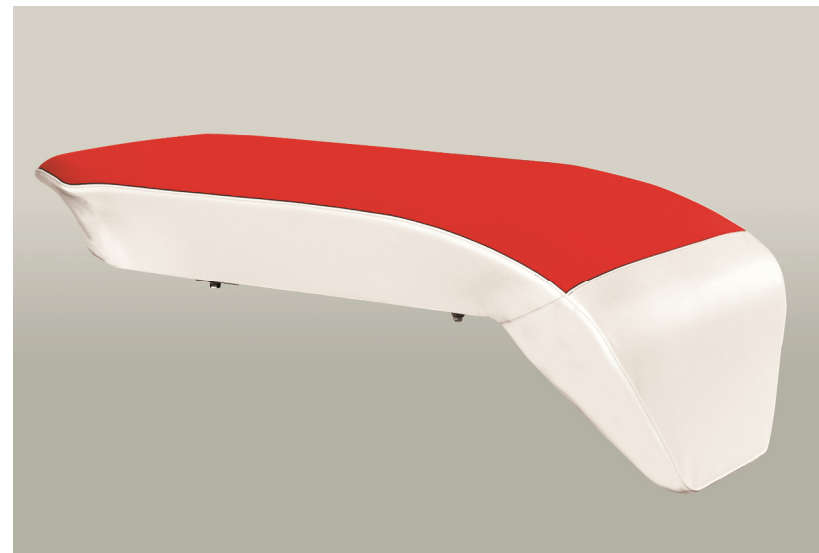

TECHNICAL FEATURES

- Body of the vaulting table:
 - Soft front section for shock absorption
 - Non-slip top covering the hand placement area
